

How to set callback webhook?

The Preference tab provides users with control over key settings related to their experience within the system. Here, users can specify how they search for and identify other users, ensuring the process aligns with their needs. Additionally, users can customize how they receive notifications, choosing the types of alerts they want to receive and the methods by which they're notified. The tab also includes options for configuring webhooks, allowing users to define how the system interacts with external services or applications for real-time event updates.

- Log in to the back office, click on your profile name in the top right corner, and select "Settings."

The screenshot shows the PRIZO Dashboard interface. On the left is a sidebar with navigation options: My Dashboard, Wallets, Address Book, Transactions, Card Transactions, Payment Url, Logs, Rules, Routing Codes, and Analytics. The main area displays a table of active accounts. In the top right corner, a user profile dropdown menu is open, showing 'Settings' and 'Sign Out' options, with 'Settings' highlighted by a red box.

Active	Account	Currency	Valid	Default	One off Withdrawal Amount	Daily Withdrawal Limit	Reserve Balance
✓	#658	USD	✓	○	\$0.00	\$10,000.00	\$864.54
✓	#698	INR	✓	○	₹0.00 (\$0.00)	₹100,000.00 (\$1,194.02)	₹0.00 (\$0.00)
✓	#960	EUR	✓	○	€0.00 (\$0.00)	€850.00 (\$917.37)	€0.00 (\$0.00)
✓	#961	AED	✓	○	0.00;- (\$0.00)	4,000.00;- (\$1,089.18)	0.00;- (\$0.00)
✓	#1192	KES	✓	○	KSh0.00 (\$0.00)	KSh120,000,000.00 (\$928,487.17)	KSh1,099,940.92 (\$8,510.68)
✓	#1780	ARS	✓	○	AR\$0.00 (\$0.00)	AR\$0.00 (\$0.00)	AR\$0.00 (\$0.00)
					\$0.00	\$941,687.74	\$9,375.22

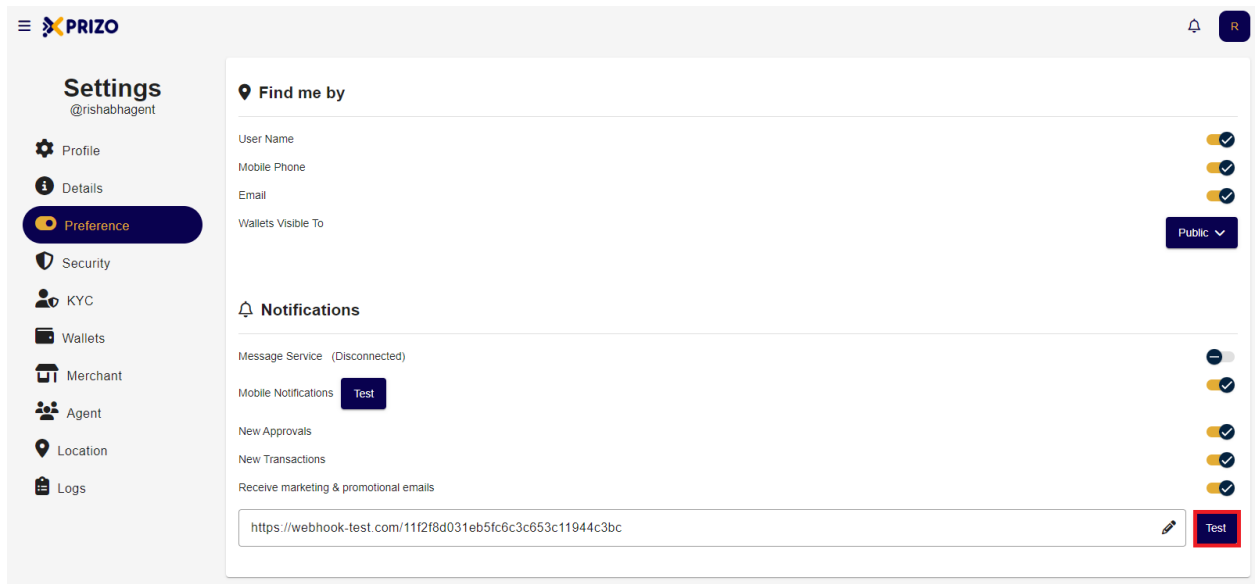

- Next, navigate to the "Preference" tab on the Settings page.

The screenshot shows the PRIZO Settings page for a user named @rishabhagent. The left sidebar contains a list of settings categories: Profile, Details, Preference (highlighted with a red box), Security, KYC, Wallets, Merchant, Agent, Location, and Logs. The main content area displays the user's profile information, including a QR code, a Unique ID (#KP7ZNZY2L6EJ), and fields for User Name (rishabhagent), Email (rishabh.0538@gmail.com), Mobile Phone (+917065349009), and Country (United States).

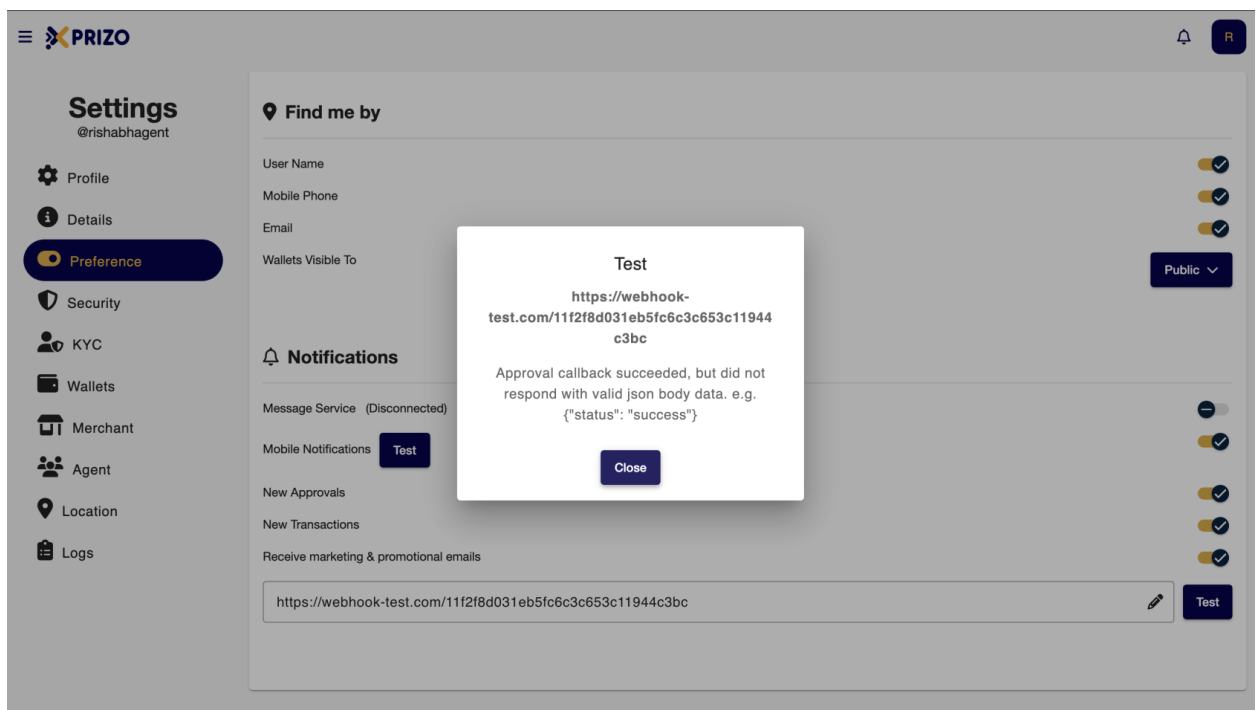

- In the Notifications section, click on the URL field to edit the webhook for notifications.

The screenshot shows the PRIZO Settings page for a user named @rishabhagent, specifically the Notifications section. The left sidebar is the same as the previous screenshot, with the Preference section highlighted. The main content area shows the 'Find me by' section with fields for User Name, Mobile Phone, Email, and Wallets Visible To (set to Public). Below this is the 'Notifications' section, which includes a 'Message Service (Disconnected)' toggle, 'Mobile Notifications' with a 'Test' button, and 'New Approvals' and 'New Transactions' toggles. At the bottom, there is a field for 'Receive marketing & promotional emails' with a URL (https://webhook-test.com/11f2f8d031eb5fc6c3c653c11944c3bc) and a 'Test' button. The URL field is highlighted with a red box.

- After entering the webhook URL, click the "Test" button next to it to verify the URL.

- Upon clicking the test button, you will be able to see the following results.

To see the response for the above webhook click below.

Approval Webhook JSON Response
