

How to Create a New Account?

- Click on the [Register](#) button to sign up for XPRIZO.

Note: To create an account in the Test environment click [here](#).

The screenshot shows the XPRIZO login and registration interface. At the top center is the XPRIZO logo. Below it is the heading "Login" followed by the instruction "Enter your username and password to login to your account, or select register if you are a new user." To the left of the form is a large, stylized graphic consisting of several overlapping shapes in dark blue and yellow. The form contains two input fields: "Login Account *" and "Login Password *". The password field has a toggle icon for visibility. Below the password field is a link for "Forgot Password". A large grey button with a right-pointing arrow and the text "Login" is positioned below the input fields. Underneath the login button, the text "Not a Member ?" is followed by a red-bordered button labeled "Register". At the bottom left, there is a link "or Login with :" and at the bottom right, there is a red circular button with a white "G+" icon.

- To establish your account, complete the required information for email registration. Alternatively, for registration via mobile number, toggle the button  accordingly. Users may also input a referral code if referred by someone.

- Enter the code displayed to validate the email or mobile number.

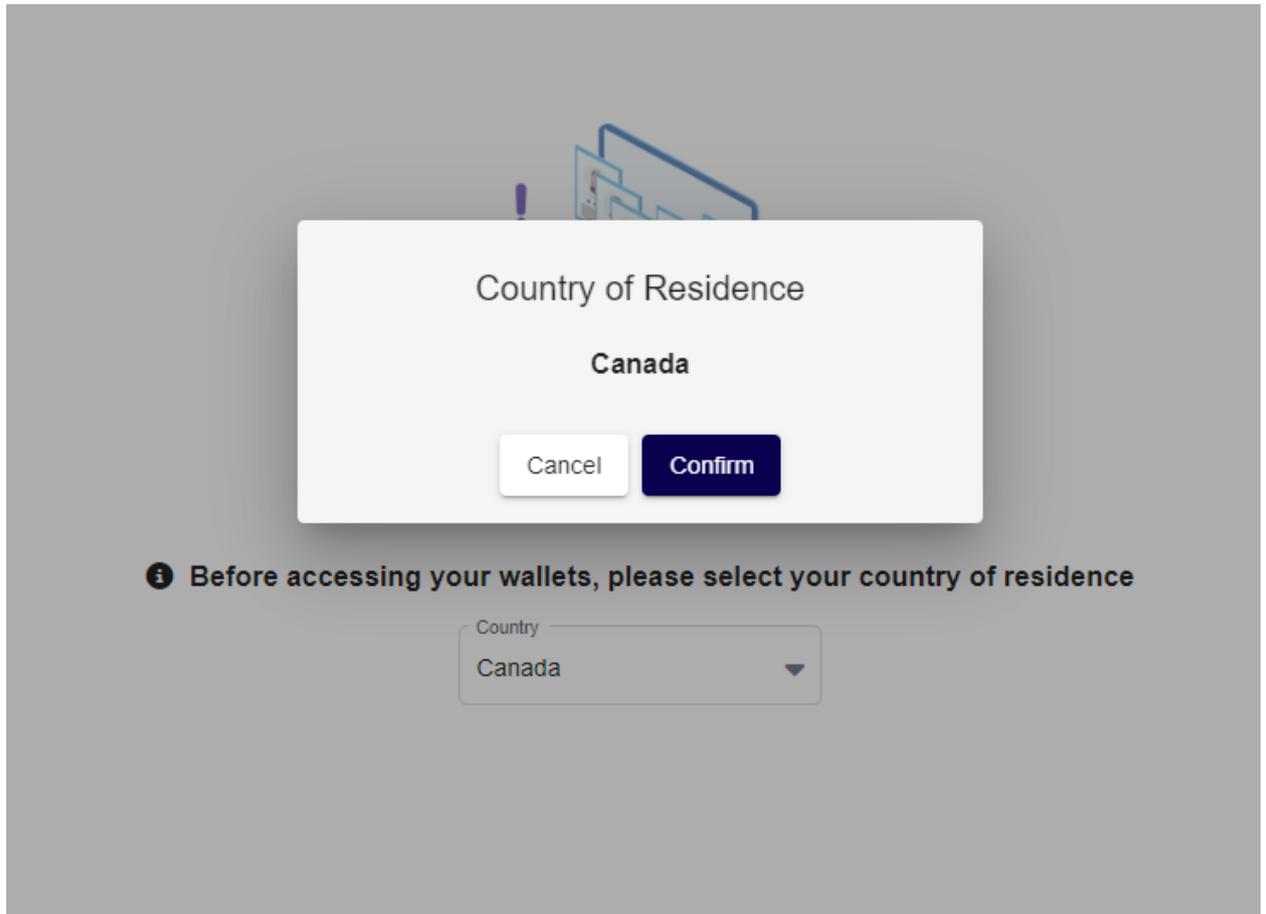

- Subsequently, input the One-Time Password sent to either your email or mobile number to finalize the validation process.

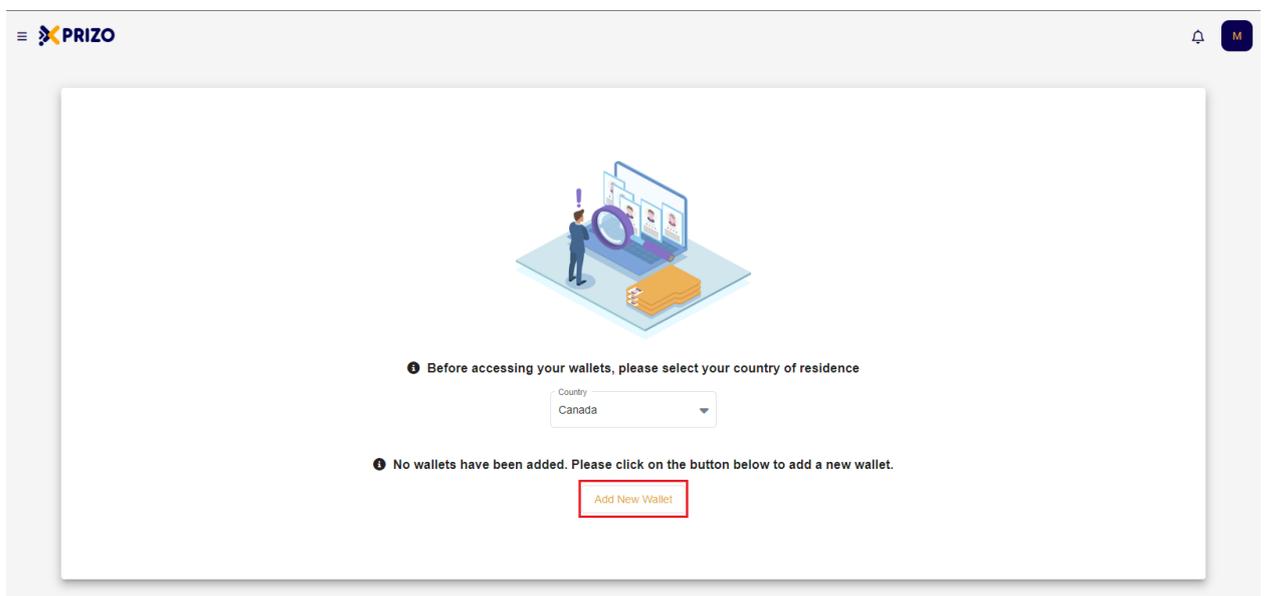

- Upon successful registration, users will be logged in and prompted to choose their country of residence before gaining access to their wallets.

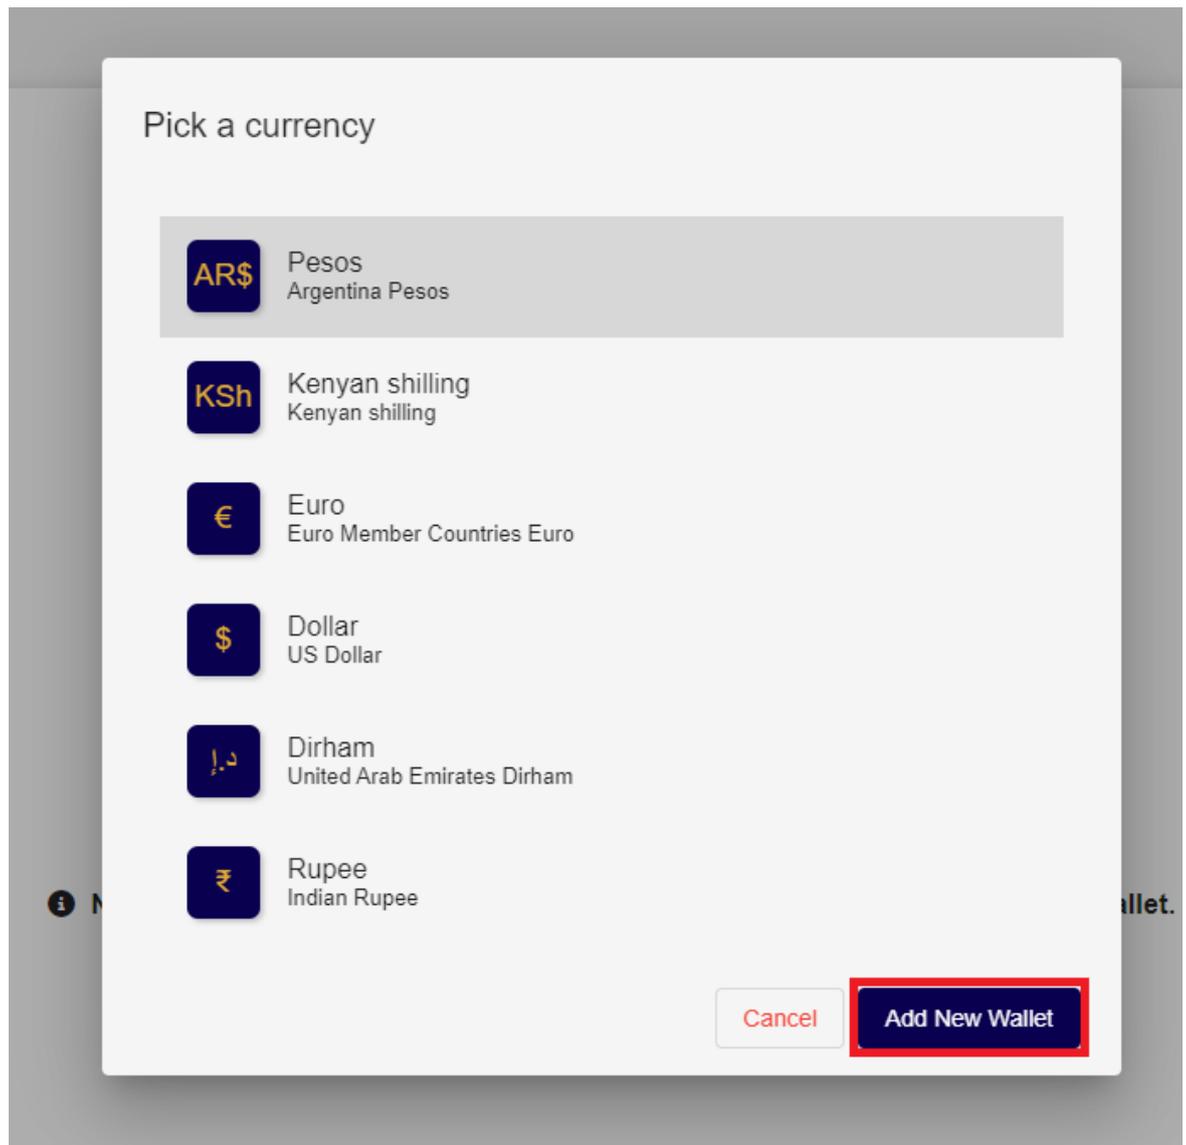

- Choose your country from the dropdown menu, and affirm your selection by clicking the "Confirm" button.

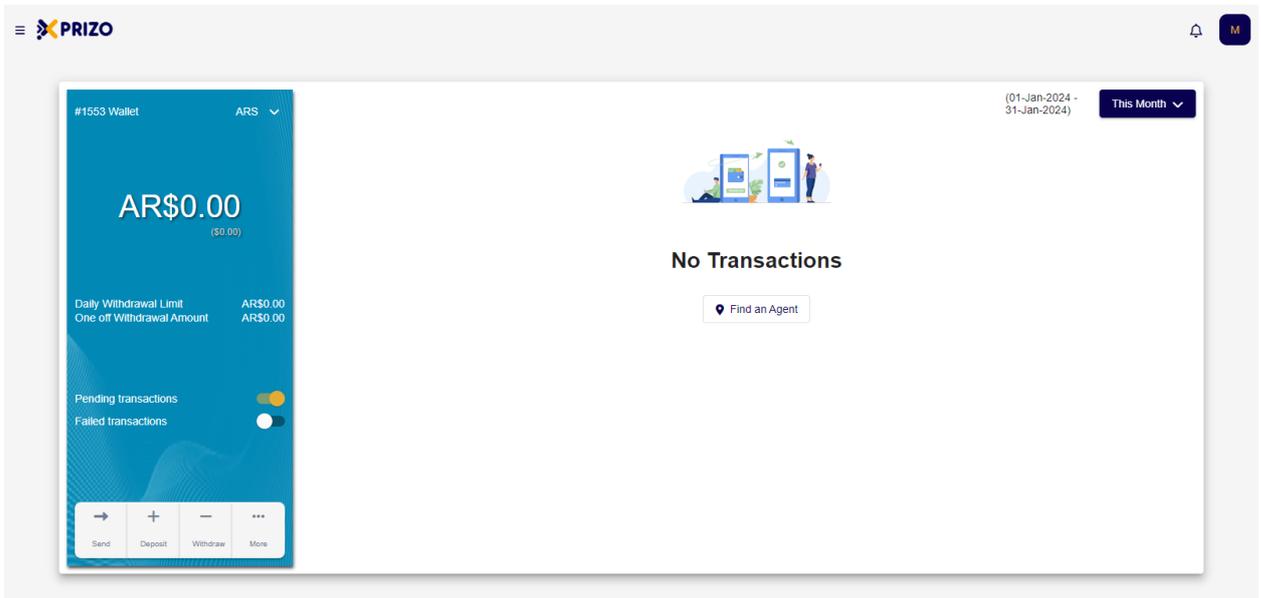

- After selecting the country, users need to add a new wallet by clicking on the "Add New Wallet" button.

- Following that, users should choose the wallet corresponding to the desired currency and then click on "Add New Wallet" to incorporate the wallet in the selected currency.

- Upon successfully adding the wallet, users will be directed to the home screen, providing them access to the wallet.
