How to Manage Savings Wallet?

- Sign in using your credentials to access your account.

- To access your savings wallet, navigate to the "More" menu and select "Savings" to open your savings wallet.

> When you access your savings wallet within any currency wallet, a wallet for that specific currency will be automatically created if it hasn't been previously.

- To switch between wallets within your savings wallet, simply click on the currency displayed at the top and select the desired wallet from the list.

- To deposit funds into your savings wallet, click on "Deposit," enter the desired amount, and click "Confirm" to add the specified amount to your savings wallet.

- After confirming, you'll notice a pending transaction in your recent transactions. To finalize the transaction and add the funds to your wallet, click on the checkmark icon. Alternatively, if you wish to decline the payment, click on the cross icon to discard it.

- Once you've confirmed the transaction, the funds will be reflected in your savings wallet.

- To withdraw funds from your savings wallet, enter the desired amount and click "Confirm" to proceed with the withdrawal.

- After that, click on the checkmark icon to confirm the withdrawal request, or click on the cross icon to discard the withdrawal process.
