

# How to Send Money to another User?

- Login to your account using your credentials, and click on Send to send money to another user.
- Enter the name of the user you want to send the money to if that user is not added in your contact list then click on the search icon and then enter the name in the popup and search for that user.
- Then enter the amount in the amount field and you can also add the message if you want to.
- Once done click on the Send Payment button to send the money to that user.
