How to use Float in Agent Wallet?

- Sign in to your account with your credentials, then access the agent wallets section by clicking on the hamburger menu.

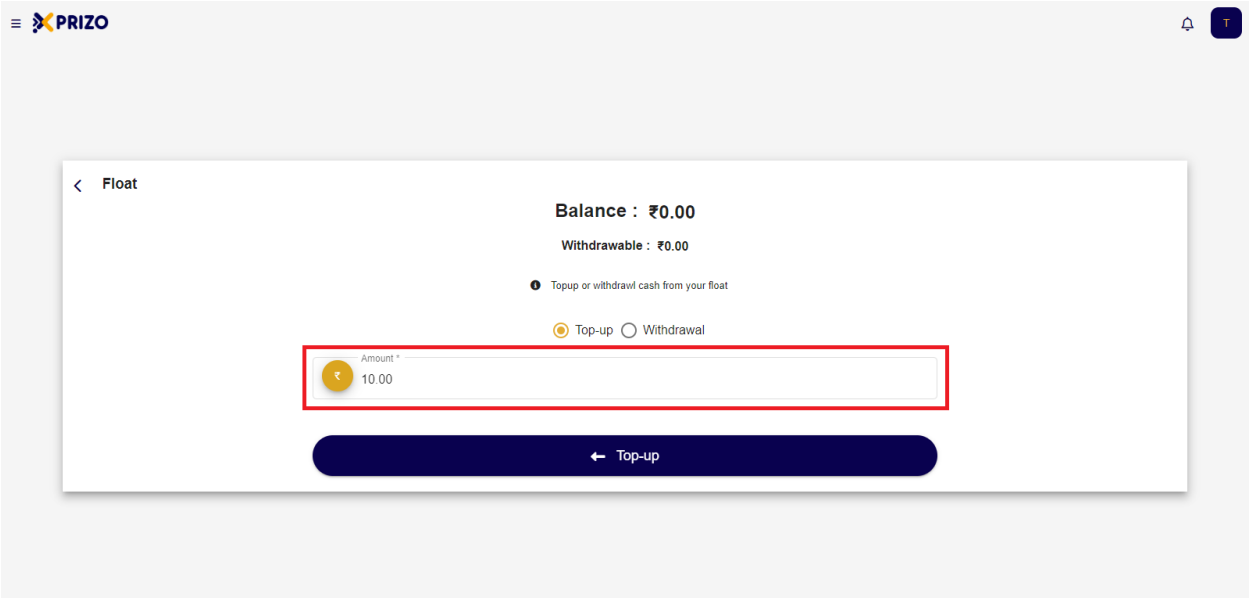

- Navigate to the "More" option and choose "Float".

- Select the "Top up" option to add funds to your agent wallet from your user wallet.

- Next, input the desired amount into the designated text field.

- Click on the Top-up button to add the entered money to your agent wallet.

- You'll then return to the agent wallet screen where the latest transaction request will be displayed. Click the check mark to confirm the transaction or select the cross to discard it.

- Upon approval, the funds will be deposited into your agent's wallet.

- To initiate a withdrawal, access the "More" menu and return to the float screen. Then, select the withdrawal option by clicking on the corresponding radio button.

- Next, input the desired amount into the designated field and proceed by clicking on the "Withdrawal" button.

- To approve the transaction, click on the checkmark icon. If you wish to discard the transaction, click on the cross icon.

- After approval, the funds will be withdrawn from the agent wallet and transferred to the user wallet.
